

CHARLES WALK AND MARY PLACE

In April 2026, Council endorsed the sale of Mary Place, between Charles Street and Charles Walk, to the owners of 110–120 Unley Road. With this section of Mary Place no longer operating as a Council-owned road, and in consideration of the new development at 108 Unley Road, Council has developed a revised layout to accommodate these changes.

The proposed layout provides revised vehicle access and parking arrangements, while improving safety, accessibility and amenity for people using Charles Walk.

The proposed improvements include:

- **Realignment of the shared path:** Shifting the path alignment by approximately 0.5 metres to improve the path alignment and create opportunities for new tree planting between Charles Lane and the Charles Walk path.
- **Changes to vehicle movements:** Changing the vehicle movement along the east-west Council-owned carpark running parallel to Charles Walk, between Little Charles Street and Mary Place, from one-way eastbound to one-way westbound, including reversing the direction of the parking bays. To comply with current Australian Standards, the parking bays will also be changed from 60-degree to 45-degree angle parking, resulting in a reduction of five parking spaces.
- **Changes to vehicle access at Unley Road:** Changing vehicle movements between Charles Walk and Ultra Tune, from Mary Place to Unley Road, from two-way to one-way westbound. The 90-degree parking spaces opposite Ultra Tune will also be converted to 45-degree angle parking. This change will result in the loss of five parking spaces to comply with current Australian Standards and facilitate the proposed improvements.
- **Improved accessibility:** Providing a compliant accessible parking space and expanding the footpath area.
- **Upgraded lighting:** Improving lighting to enhance safety and visibility.
- **Improved landscaping:** Enhancing landscaping and providing opportunities for new tree planting.

- 1 Shared path alignment improved
- 2 Upgraded landscaped areas with trees
- 3 Wider footpath area
- 4 One-way operation from east to west, with parking changed to meet Australian Standards. 26 parking spaces provided including an accessible space
- 5 Road crossing (former creek line) and access to Charles Lane closed
- 6 Council road closed and sold by Council to adjacent property 110-120 Unley Roads
