

CHARLES WALK AND THE B & M GLASS DRIVEWAY

Council previously entered into a lease agreement to provide rear vehicle access to B&M Glass across Charles Walk. As B&M Glass has relocated from the site, the lease has expired and this vehicle access will be closed, improving safety and reducing potential conflicts for people using the path.

The proposed improvements include:

- **Installing kerbing along the path** to prevent vehicle access.
- **Adding landscaping** to clearly define the path and visually close off the former vehicle access.

- 1 Former B and M Glass site to be developed (subject to approval)
- 2 Existing lease providing private access has expired and will not be renewed by Council. Vehicle crossing removed
- 3 Hardstanding area converted to a landscaped area, subject to design outcome of former B and M Glass site
- 4 Crossing removed including bollards.
- 5 Vehicle access replaced with extension of natural landscaping and kerbing along Charles Lane
